A carport is a covered structure used to offer limited protection to vehicles, primarily cars, from rain and snow. The structure can either be free standing or attached to a wall. Unlike most structures a carport does not have four walls, and usually has one or two.

## **Carport - Wikipedia**

An auction is a process of buying and selling goods or services by offering them up for bid, taking bids, and then selling the item to the highest bidder. The open ascending price auction is arguably the most common form of auction in use today. Participants bid openly against one another, with each subsequent bid required to be higher than the previous bid.

Since 2010 to around ~2016 I designed few hundred houses from personal interest (artistic hobby / training) as well as for various customers all over the world. On this page I show samples of my best designs in low resolution. For higher resolution you can purchase PDF / DWG files. Designing buildings for customers turned unprofitable and unhappy experience ().
